

EOM-200 V1.2 USB Setup:

- 1) Connect the Power and USB cables, and power on the printer.
- 2) Open EOM-200v1.2Setup.exe from the CD or download the latest version from the downloads page at www.eompos.com

A screenshot of the "DriverSetup" window. The window has a title bar with "DriverSetup" and a close button. It contains several sections: "Model" with a dropdown menu set to "EOM-200"; "Language" with a dropdown menu set to "English"; "Port" with four radio buttons: "Com", "Net", "Usb", and "Lpt". The "Usb" radio button is selected. Under "Usb", there is a dropdown menu showing "VID:0x4B43,PID:0x3830", with a red arrow pointing to it. To the right of the "Usb" section are two buttons: "Check Baudrate" and "Search Printer". Below the "Port" section is an "Info" section, which is currently empty. At the bottom of the window is an "Install" button.

3) For USB , select: VID:0x4B43,PID:0x3830

4) Click Install
